# The 3000 Series PVC casement and awning window system

The profiles of the St-Laurent collection are obtained by using lead-free PVC and a powder-based extrusion process.

- | Structural manufacturing
- | Welded frames and sashes
- | Double 1/2" and. 3/4" drywall return built into the frame
- | Triple weatherstripping system
- | Multi-point locking system
- | Sashes open to 90° for easy cleaning
- | Encore operating hardware with retractable handle
- | Sealed double glaze insulated glass with 7/8" finish or triple glaze insulated glass with 1 1/4" finish
- | Choice of white or black brush weatherstripping

## AVAILABLE FRAMES

4 5/8", 5 3/4"\*, 6 1/2"\*

5 3/4" with integrated brickmould

\* Allows the sealed unit to be recessed further in the insulated part of the wall.

## TWO SASH CHOICES AVAILABLE

Colonial  
Contemporary

COLONIAL

CONTEMPORARY

## The 1000 Series PVC sliding or hung window system

These products were designed to harmonize perfectly with casement windows. Mix and match several types of windows according to your needs, without sacrificing overall aesthetics.

All frames and sashes are welded for a flawless finish.

### AVAILABLE FRAMES

4 5/8"

5 3/4" with integrated brickmould\*

\*Single sliding or single hung windows

### AVAILABLE SASH

Colonial

### THE 1000 SERIES SINGLE AND DOUBLE SLIDING WINDOW SYSTEM

- | Operative sashes tilt inward for easy cleaning
- | Easy to open and durable thanks to brass castors integrated into the sash
- | Continuous weatherstripping covering full perimeter of the sash to reduce risk of air infiltration

### THE 1000 SERIES SINGLE AND DOUBLE HUNG WINDOW SYSTEM

- | Spring hardware system for smooth opening
- | Two handles installed on lower sash for easy handling
- | A sealing bubble at the sill level eliminates risk of air infiltration

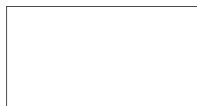

COLONIAL

## The 3000 Series hybrid casement and awning window system

Take advantage of an optimal combination: aluminum's strength and PVC's energy-efficiency.

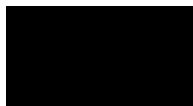

### STANDARD COLOUR SELECTION\*

White

Commercial brown

Black

\*Other colours available upon request.

### AVAILABLE FRAMES

5 1/8" (PVC 4 5/8" + aluminum 1/2")

6" with brickmould ( 5 1/8" + BM 7/8")

### AVAILABLE SASH

Contemporary

## The 1000 Series hybrid single sliding or single hung window system

These products are available in the same standard colours as the hybrid casement windows. The contemporary sash perfectly complements the sash of a hybrid casement window.

CONTEMPORARY

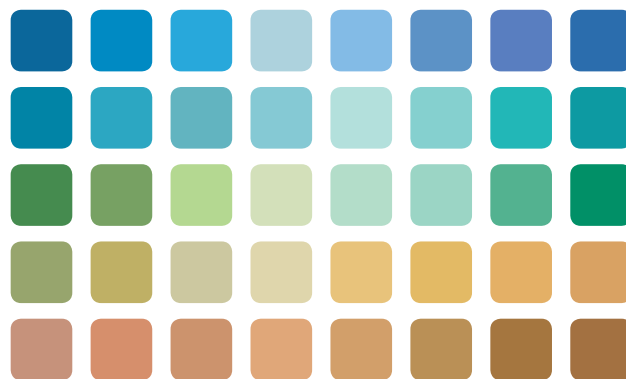

## Fenêtres Lajeunesse: Offering quality and selection for 20 years

Our products are now manufactured at our plant in Lanoraie, Quebec, which opened its doors in 2014. These new facilities will allow Fenêtres Lajeunesse to meet the challenges of an increasingly demanding market.

Since 2014, Lajeunesse has been manufacturing its own IG units for its windows. Thanks to top-notch components, cutting-edge equipment and qualified staff, you can be sure you will enjoy well-assembled and superior-quality sealed units.

We use energy-efficient ClimaGuard 80/70 low-E glass. This type of glass, specifically developed for northern climates, reduces heating costs, minimizes heat loss and provides a significant passive solar gain. Ranked first amongst energy-efficient glass with 81% of transmissible visible light, ClimaGuard 80/70 also reduces the need for artificial lighting.

Our digitally controlled equipment (saws, welders, corner cleaners) is in constant contact with our production software thanks to the use of a bar code label system. This allows for exceptional squareness and constant quality control.

## Customize your project with some colour

Our state-of-the-art painting workshop offers you unrivalled application quality on PVC and aluminum.

### PERFORMANCES\*

PRODUCT	DP**	ER VALUE	CLIMATE ZONE		CSA A-440-00
			2015	2010	
PVC & hybrid casement 3000	R 100	33	1 / 2	ABC	A3 / B7 / C5 / F20
